Class 9   **SYLLABUS**   **COMPUTER**

Chapter 1:   History of computers   Pages 27
                   Short answer type: Q. nos. 1, 2, 3, 8, 9, 10
                   Descriptive: Q. nos. 1, 16, 17, 18

Chapter 2:   Binary System   Pages nos. 68 and 69
                   Short answer type: Q. Nos. 6 and 7
                   Descriptive type: Q. No. 11

Chapter 3:   Boolean Algebra   Page nos. 93 and 94
                   Short Answer Type: Q. nos. 1, 2, 3, 8, 9
                   Descriptive type: Q. nos. 1, 4, 5, 7, 8, 15
                   Truth table and Logic diagram.

Chapter 4:   Structure of a Computer Page No. 112
                   Short answer type: 13, 14, 15
                   Descriptive type: 2

Chapter 7:   DOS   Pages 160 and 161
                   Short answer type: Q. nos. 1, 3, 4, 5
                   Descriptive type: Q. nos. 4, 5, 9

Chapter 10: Flowchart
           Definition, advantages & disadvantages of Algorithm and Flowchart
           Drawing flowchart:
                       To find the largest among three numbers.
                       To check whether a number is even or odd.
                       To check whether a number is positive or negative.
                       To find the sum of 10 different numbers.
